Programme Structure

The part-time, clinically-based programme is divided into six terms over two calendar years. Its curriculum is well designed and integrated to prepare students to become advanced practitioners in a particular clinical area.

Year 1
- Advanced Health Assessment and Clinical Judgment
- Evidence-based Practice for Quality Care
- Clinical Leadership, Management and Outcome Evaluation
- Scholarly Inquiry I
- Scholarly Inquiry II

Year 2
- Student-led Seminar I
- Student-led Seminar II
- Scholarly Inquiry Project

Programme Description

The Master of Nursing Programme provides graduate nurses with opportunities to develop the knowledge and competencies required for advanced nursing practice. In order to achieve this aim, students will be given an opportunity for an in-depth study of advanced health assessment, development and utilization of evidence-based interventions, outcome evaluation, management and leadership development. Students will further develop their skills to appraise and apply research as a scientific base for nursing practice. The programme offers an intensive theoretical training and problem-based learning experience in clinical leadership, health service management, quality improvement and health outcome evaluation to prepare students to advance their career in the management stream and/or to pursue postgraduate studies at the MPhil-PhD or Doctor of Nursing programme.

Admission Requirements

- Have a Bachelor’s degree, normally with honours not lower than Second Class; or
- Graduated with an average grade of not lower than “B” in a recognized Bachelor of Nursing programme; and
- Be a Registered Nurse; and
- Fulfill the English Language Proficiency Requirement stipulated by the Graduate School of CUHK.

Mode of Study

Part-time programme consolidated into six terms over two calendar years.
